

Company Profile

Grenzebach Group is a leading industrial automation solution provider for the global glass and building materials markets. In addition, the group of companies is active in other business areas, including casting, power and energy, intralogistics, various recycling processes, friction stir welding, the automation of industrial additive manufacturing, and digital networking.

Grenzebach ranks among the international technology leaders in its markets. The global manufacturing footprint, with production sites in Germany, Romania, the US, India, and China, as well as additional worldwide locations, ensures on-site customer support.

More than 3,000 systems, installed in over 55 countries, stand for quality and reliability. Since the company opened its doors over 65 years ago, it has remained in the hands of the founding family. With an export ratio of more than 90 percent, Grenzebach is a global player.

Our Mission

Thinking Ahead Productivity

For us, change is an opportunity to keep improving and shape the future actively. With a strong focus on innovative and sustainable solutions, we develop, plan, and implement state-of-the-art and reliable systems and solutions. We are continuously developing and are always driven by innovation to open new paths for our customers, partners and employees and create sustainable added value together.

Our Vision

Next Stop: The Future

We have a clear vision: As a reliable partner to our customers on their journey, we think ahead together and shape the future for present and future generations. We develop innovative solutions in industrial automation and plant engineering that meet current requirements and offer long-term perspectives, aiming to achieve sustainable growth.

We are motivated by our vision to face challenges and seize opportunities actively. We work together with our customers, partners, and employees to shape a sustainable future, because their success drives us.
